

Introduction to Artificial Intelligence

Lesson 9 of 29

How is AI evolving?

Computer scientists have identified **three levels of AI** based on predicted growth in its ability to analyze data and make predictions. They call these levels:

- Narrow AI
- Broad AI
- General AI

As shown in the following graphic, Narrow AI, and Broad AI are available today. In fact, most enterprises use Broad AI. General AI won't come online until sometime in the future.
