How do AI services calculate? And, what do they do with those calculations? Let's break this down into two parts.

[Select each card to learn more.](#)

This is what AI services do! Based on data **analysis**, they make **predictions**. It might not seem like much, but that analysis and those predictions can have an enormous impact on human life.

Before you move on, take a moment to compare “analysis” and “prediction” to the guess you made earlier. Are you surprised? If so, you might be wondering
